IT317-<G3> PROJECT MANAGEMENT

SPRINT REVIEW REPORT

Project Title: RelieFlow

Prepared By: Harvey A. Ortega / RelieFlow / ScrumMaster

Sprint Number: Sprint 4

Sprint Duration: 11/03/2025 - 11/16/2025

Date of Submission: 11/30/2025

Table of Contents

1. Work Completed

- Implemented secure role-based access control, ensuring users only access pages and features allowed by their role.
- Developed Admin Donation Dashboard displaying donation summaries, totals, charts, and beneficiary data with real-time updates.
- Completed Beneficiary Claim History view, allowing beneficiaries to view their past claims, status, items received, and dates.
- Validated Relief Claim Approval process for admins and organizations.
- Categorized donations and inventory items by type and implemented sorting by name, quantity, category, and date.
- Generated Donation Reports for admins, providing summary information and export capability.

2. Demo Notes

- Demo showed restricted access based on roles; unauthorized attempts triggered "Access Denied."

- Admin Donation Dashboard presented correct totals, charts, and item summaries.

- Beneficiary Claim History displayed only the logged-in user's claims with correct status and linked items.

- Sorting and filtering of items by category and other fields worked as expected.

- Donation Reports were generated and exported successfully.

3. Stakeholder Feedback

- Stakeholders appreciated the improved system transparency and role-based security.

- Suggested minor UI refinements for the dashboard charts and claim history table.

- Recommended adding future enhancements for analytics and reporting.

4. Action Items

- Refine dashboard interactions for smoother workflow.

- Enhance reporting module for analytics integration.

- Prepare for In-App Notification implementation in Sprint 5.
- Monitor real-time updates for accuracy and performance.

5. Team

Name	Role
Marc Louis P. Ortizano	Product Owner
Danielle Maxine P. Ocampo	Business Analyst
Harvey A. Ortega	Scrum Master
